Who we are...

At Quality Cuttings Team, we believe our customers are our most valuable partners and we are committed to supporting their success. We are a premier provider of the highest quality unrooted cuttings, sourcing and shipping from domestic and off-shore stock, in close partnership with Floraplant S.A. de C.V. From perennials and annuals, to succulents, Quality Cuttings Team has more than 700 varieties in our premier Floraplant program. Our customer service in the wholesale horticulture trade is second to none, with reliable service and production quality. We're excited to help you bring new, colorful, exciting varieties to your customers!

Consistent, High Quality Unrooted Cuttings

Our stock nutrition is a key priority. Customer success starts with active cuttings that root well.

Convenience is key- One stop shop with a wide variety of genetics from over 40 breeders.

Quick shipping- orders received by Friday ship Monday (US).

Reliable & Friendly Service-We are always here to help.

Floraplant SA de CV is a 100% Mexican company whose origins go back to the year 1985, being formally founded in 1991 by Mr. Hans Peter Doster and Mrs. Lourdes Gómez de Doster. The company has an area of 269 acres with 141 warehouses divided into two production centers, both in the State of Morelos.

Floraplant® is an icon of nurseries in Mexico with a large international presence, dedicated mainly to the production of ornamental plants, seedlings, rootless export cuttings, rooted cuttings for the national market, as well as the sale of inputs and seeds with the highest quality standards.

With more than 30 years of experience, **Floraplant®** is certified by the USDA for export, thus allowing it to operate under rigorous quality standards.

Floraplant® has more than 800 international varieties of different styles, colors and sizes. Due to the high demand for cuttings in the United States and Europe, Floraplant® has made exclusive sales contracts with renowned companies, such as our own Quality Cuttings Team (QCT).

QCT exclusively represents our unrooted cutting material throughout the United States and Canada.

Alternanthera hybrid 'Choco
Chili'TM

Amsonia hubrichtii Storm
Chaser

Amsonia x 'Bases Loaded' (Blue Star)

An Intrinsic Introduction! Intermediate, halfway type foliage, emerges dark green. These hybrid plants are heavy blooming. The mid-blue flower clusters are larger too, and begin to open at the end of May on 18-24" stems. These plants have a reserved growth spurt to 30 plus inches after the flowers fade, keeping the plant more wide than tall. Full sun, average soil.

Amsonia
x 'Bases Loaded'

Amsonia x 'Bases Loaded' (Blue Star)

Angelonia

Serfina Pink IMP

Angelonia hybrid
 The Angelonia Serfina series features heat and drought tolerant plants with exceptional branching and large flowers. Plants start with a distinct, upright habit, but will mature into a full, lush upright-mounding plant. Excellent as the centerpiece in a combination planting or in the landscape.

Angelonia Serfina Pink Imp

Bacopa (Sutera) 'Epic™ Blue'

Bacopa (Sutera) 'Epic™ Pink'

Bacopa (Sutera) 'Scopia® Great White Improved'

Aster 'Thunderdome' PPAF

Aster Thunderdome

This hybrid of aromatic aster and New England aster is substantial with fragrant, bushy foliage, and purple flowers. In the garden, these large plants will grow two to three feet tall and up to three feet wide. A new color break for this type of aster. Full sun and average to dry soil.

Basil (Ocimum) 'Minette'

Basil (Ocimum) 'Pesto Perpetuo' (PP16260)

All of QCT's edible herbs are chemical free.

Bidens ferulifolia

Bidens ferulifolia 'Pop Star' PPAF

Bracteantha hybrid
 Eager to reinvent the category of strawflowers, we're excited to introduce the vastly superior Cottage series of bracteantha from Westhoff. Combining the most disease resistant genetics available with all season durability, these plants mean success for the gardener. The colors are matched perfectly in production and can easily be mixed in larger containers for 4-in-1 color combinations for spring through autumn sales.

Bracteantha Cottage™

Bracteantha 'Cottage™ Bronze Imp'

Buddleja Candy Lil' Coconut (PP34,525)

Buddleja Candy Lil' Grape (PP34,515)

Buddleja Candy Lil' Lavender (PP34,378)

Buddleja Candy Lil' Raspberry (PP34,500)

Buddleja Candy Lil' Taffy (PP34,703)

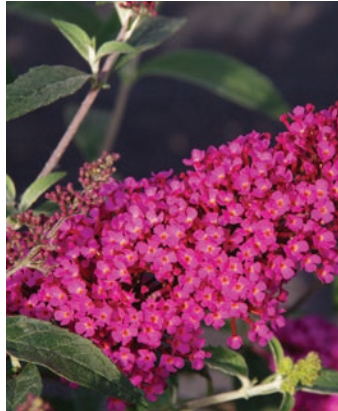

Buddleja Butterfly Candy is an exceptionally floriferous series. The flowers have a light, sweet fragrance and they are incredibly attractive to butterflies and bees. This makes the Butterfly Candy series great for biodiversity. All the varieties are well-branched, and because of their size, ideal for containers and smaller gardens. Place Butterfly Candy in full sun using a well-drained, fertile soil. Buddleja Butterfly Candy has an exceptionally compact plant size of 32" high and wide and a naturally rounded habit.

Buddleja Butterfly Candy

Buddleja davidii Buzz®

Buddleja BUZZ® from PlantHaven are a perfect patio butterfly bush with full-sized flowers on a significantly smaller habit.

Typically, this variety will bloom for 5 months of continual flowering, illuminating the garden with vibrant colors from May to September.

Monarda hybrid Midnight Oil as selected for better vigor, cleaner, and less disease-prone foliage. Glossy leaves emerge chocolate red/purple. Flowers are light pink with wine-red spots beginning in June. The brown seedheads will last throughout winter too!

Monarda hybrid Midnight Oil PPAF

Living up to their namesake, these nemesias are essential for scent in the garden. Large flowers with bold colors and intense fragrance make these a garden staple. Essential® varieties from PlantHaven are the most heat-tolerant nemesia on the market today, providing endless color from early spring through autumn.

Nemesia ESSENTIAL® Blueberry Custard Imp (W1045)

Pericallis Senetti® White Red Heart

Perilla frutescens 'Tricolor' Heart

When it comes to early spring color, you can't beat the Senetti pericallis series from Suntory Flowers. Three inches across with a flower count as high as 200 on a plant grown in a 10-inch pot. Electric shades of blue, purple, pink, magenta and new white. Senetti varieties are dramatically different from old-fashioned cinerarias. Although the vivid bicolor flowers look familiar, the cool weather garden performance, durability, and vigor Senetti offers is so much better. Plus Senetti has a unique reblooming ability and can be cut back for a fresh flush of flowers.
