## MANDEVILLA MANIA!

SUNTORY FLOWERS leads the way in mandevilla/dipladenia breeding, introducing completely new flower colors and forms. A key turning point was the introduction of Sun Parasol Original Sunbeam in 2022. That was followed up by the gorgeous Sun Parasol Giant Peach Sunrise. Now we have five new introductions that made a splash at the Tropical Plant International Expo (TPIE) in Ft. Lauderdale, FL. Two won Favorite New Flowering Plant and three won the Garden Center Group's Cool Product Award.

Check out the excitement at the TPIE show!

Three new varieties join Sunbeam in creating the Sun Parasol Original XP class for outstanding flower power and performance. Bluephoria, our first blue, is getting a groovy, psychedelic brand launch. Two more have been very well received in Europe – Mauvelous (Sundaville Flamingo Pink) and Double Pink Blush (Sundaville Double Blush Pink), a FleuroStar winner.

But the one everyone was really excited about at the show was FiredUp Orange – a completely new product that makes an outstanding thriller in summer planters. Suntory has received a utility patent for the orange and yellow mandevillas. It is noted on the protected varieties.

### SORTING SURFINIA

Over 35 years, we've built quite the portfolio of Surfinia petunias! New this year is a page that organizes all 33 varieties by series and vigor class. This index will come in handy when you are choosing varieties or seeking substitutions.

# 2025 Exciting New Varieties

**SUN PARASOL ORIGINAL XP BLUEPHORIA**

**Page 4**

Get ready to experience Bluephoria – an exciting breakthrough blue mandevilla. Pink buds open to mesmerizing shades of blue and purple.

**SUN PARASOL ORIGINAL XP MAUVELOUS**

**Page 4**

Beautiful brush strokes and a pixilated effect add an artist's touch. Plants offer strong branching and a slightly more upright habit.

**SUN PARASOL ORIGINAL XP DOUBLE PINK BLUSH**

**Page 4**

Double the beauty with double pink blooms! This FleuroStar Winner is the first compact mandevilla with double flowers.

**SUN PARASOL FIREDUP ORANGE**

**Page 10**

This bright orange dipladenia is a natural-born thriller with an upright habit. Slender foliage and pinwheel-shaped blooms create a new look.

**SUNDENIA RED IMPROVED**

**Page 11**

This variety gets an upgrade with larger flowers and a bushy plant loaded with vibrant blooms. It's our best new red!

**SURFINIA HEAVENLY BLACKBERRIES & CREAM**

**Page 15**

Eye-catching creamy blooms contrast with dark blackberry jam centers. This petunia has a semi-trailing habit and exceptional branching to fill pots.

**SENETTI BLUE SPOON**

**Page 32**

Get the scoop on this cool-season novelty. Bright blue blooms are spoon shaped with contrasting white quills. Habit is upright and vase-shaped.

**GRANDAISY PINK HALO IMPROVED**

**Page 40**

Grandaisy Pink Halo gets an upgrade with a more vigorous plant and larger blooms. Size and timing match the Grandaisy series.

**TWO SERIES UPGRADES**

The next generation of breeding

**Soiree Double catharanthus**  
**Page 27**

Soiree Double Pink and Orchid are replaced with improvements. Two new varieties are Appleblossom and Pure White. All four have a tighter habit, more flowers and richer colors.

**Surdiva scaevolae**

**Page 28**

Surdiva Blue Violet and Fashion Pink have been improved for higher bloom count, more intense color, growth habits and timing.

**LOVELY LANDSCAPES**

Last summer was a great opportunity to see how Suntory Flowers varieties shine in the landscape at the Cincinnati Zoo and Longwood Gardens. We included a few of our past favorites as well.

## LOVING LOFOS<sup>®</sup>

Gorgeous alone or as a spiller in combinations, Lofos adds a fairytale charm that will captivate your customers. Check out these ideas for inspiration:

1

A simple tomato cage provides vertical support for Lofos<sup>®</sup> Compact. Consider training the more vigorous varieties upward to a trellis.

2

Create a living umbrella, like Mast Young Plants has in past summer trial gardens.

Lofos<sup>®</sup> Compact varieties make an outstanding spiller in large mixed planters.

# Make Your Own: It's As Easy As 1-2-3

The classic recipe for effective container combination plantings is choosing thrillers, fillers and spillers – an upright focal plant flanked by mounding and trailing ones.

Sometimes the thriller is a grass and the spiller is foliage.

Choose plants that are compatible in terms of light, moisture and temperature needs for the best results.
