SUMMERSTAR® PINK

# Mandevilla hybrid

## BELLA™

Bred for their top performance and neat habits, Bella are extremely versatile in their usage. Due to their natural well-branched and tidy habits, they are ideal for both hanging baskets and containers of any size. Tolerant of both hot and cool temperatures, Bella will produce an abundance of gorgeous flowers that are continuously displayed from spring through autumn.

## SUMMERSTAR®

AGRIOM 

The Summerstar line is characterized by flower color intensity. The plants produce an abundance of buds that develop into beautiful and large flowers. Summerstar performs best in partially shady to sunny spots and they will bloom to the first hard frost in the fall. Summerstar Mandevillas self-clean and continue to bloom profusely.

## SUN PARASOL® GARDEN

# SUNTORY

SUNTORY FLOWERS

Sun Parasol Mandevillas have superior disease resistance and the ability to produce more flowers than the competition. Sun Parasol Garden is the first bedding plant mandevillas! They are naturally compact and look exquisite in planted landscapes. They are typically bred in 4-inch pots and are known for ease of growing and higher disease resistance. These plants love warmth and plenty of sun light.

## SUN PARASOL® ORIGINAL

# SUNTORY

SUNTORY FLOWERS

Sun Parasol Original Mandevillas have superior disease resistance and the ability to produce more flowers than the competition. They have a durable garden performance, coarse foliage and are natural climbers suitable for patios, balconies and for landscaping in sunny areas. They are the classic Mandevilla and are stunning when trained to a trellis. These plants love warmth and plenty of sun light.
